EDUCATION

Thapar Institute of Engineering and Technology Department of Computer Engineering (CGPA 9.05)

Aug. 2024 – Present
Patiala, Punjab

- **Coursework:** Data Structures & Algorithms, Database Management Systems, Computer Networks, Probability & Statistics, Discrete Mathematics, Operating Systems, Artificial Intelligence, Object-Oriented Programming.

PROJECTS

TradeStreamX

Jun. 2026 – Present

Distributed Low-Latency Trading Exchange | React, Node.js, PostgreSQL, Redis, Kafka, Socket.IO, Docker

- Built a distributed stock exchange simulator supporting 5 listed stocks, 4 order types, and real-time price-time priority order matching using Kafka, Redis, and PostgreSQL.
- Engineered a Dockerized trading platform integrating Kafka, Redis, PostgreSQL, REST APIs, WebSocket market feeds, and a real-time trading dashboard with live stock charts.

TAMSC

Jan. 2026 – Jun. 2026

Fog-Robust Scene Text Detection | PyTorch, ConvNeXt, DBNet, Computer Vision

- Executed real-time attendance, calendar history, and secure user management, preventing duplicate registrations.
- Achieved 79.7% Precision, 78.6% Recall, and 79.2% F1-score on the ICDAR2015 benchmark under synthetic fog conditions.

Scanix

May. 2026 – Jun. 2026

Intelligent Face Recognition Attendance System | React Native, Python, SQLite, OpenCV

- Deployed a React Native attendance system integrating OpenCV-based facial recognition with over 95% identity verification accuracy.
- Implemented real-time attendance, calendar history, and secure user management preventing duplicate registrations.

SKILLS

Languages : Python, C++, C, JavaScript, SQL

Software Development : Node.js, REST APIs, MongoDB, React.js, HTML, CSS, Redis, Kafka, Socket.IO, Docker, PostgreSQL

AI & ML Systems : TensorFlow, Scikit-learn, OpenCV, ROS

Developer Tools : Git, GitHub, Linux, Android Studio

Coding Profiles : LeetCode (200+ Problems Solved), leetcode.com/u/Mani7005

LEADERSHIP EXPERIENCE

Google Developer Groups

Sep. 2025 – Present

Core Member

Thapar Institute of Engineering and Technology

- Led a 30-member technical team in organizing developer events, workshops, and bootcamps for more than 150 students.
- Hosted and moderated over 5 technical sessions featuring industry professionals.
- Designed and implemented a React.js coursework portal used by more than 200 students, improving access to course materials and academic resources.

SatHack 2025 Hackathon

Nov. 2025

Organizing Team

Saturnalia 2025

- Co-organized a university-wide hackathon with over 200 participating teams and managed event logistics.
- Developed responsive React Native UI components for a hackathon with more than 100 participating teams.

Mechatronics and Robotics Society

Sep. 2024 – Present

Executive Member

Thapar Institute of Engineering and Technology

- Collaborated with a multidisciplinary team to develop ROS-based motion control for a 4-DOF robotic arm.
- Integrated real-time sensor feedback across 4 actuators and optimized PID controller parameters to improve motion stability.

ACHIEVEMENTS

Awarded the Thapar Undergraduate Research Fellowship 2025 worth 20,000 to conduct research on Quantum Entanglement Visualization using Machine Learning.

Awarded the Academic Excellence Scholarship for securing a 9.45 CGPA in the first year and ranking among the top 10% of the batch.

Selected as an open-source contributor for GirlScript Summer of Code 2025, collaborating on community-driven software projects.
